

STRONGLY RECOMMENDED FOR EVERYONE

HIDDEN POCKET

Teacher/Counselor: The "hidden pocket" is far safer than a pouch or wallet and more convenient than money belts or hidden compartments.

A belt, cord, or strong string inserted through the top loop of the "pocket" allows it to be worn hanging from the waist, though placed inside your pants, shorts or skirt. In very short time the "pocket" will mold against your hip and be almost indistinguishable from the natural curve of your body and clothing.

Sewing Instructions: The "pocket" should be made of light but durable material. Plain dark colors will be the least noticeable on your belt.

The material can be cut in a long strip, 6" x32". Start with the 32" strip and fold it double, 6" x16". Leave two inches at the top for your belt or cord.

Now sew down one side, across the bottom and back up about 6". The remaining gap is for inserting your passport and currency. Leave an opening large enough to easily insert and remove valuables but no so large that they might work their way out.
